

Job Offer: Student Research Assistant

The Mannheim Institute for Sustainable Energy Studies (MISES) at the University of Mannheim offers several positions for Master or Bachelor students in business, economics, data science or related fields as

Student Research Assistants (m/f/d) 20 to 40 hours per month

At MISES, we examine the challenges and innovation opportunities that emerge from the transition to a decarbonized energy future. The focus of our studies is the cost and opportunities of decarbonization strategies.

You will support ongoing research and teaching projects at our institute. In particular, student research assistants are involved in (i) literature research, (ii) preparation and handling of data, (iii) preparation of manuscripts, presentations, and courses as well as (iv) administrative tasks.

We expect a strong academic record, an advanced command of English, intermediate skills in Office software (Word, Excel, PowerPoint), commitment, reliability, and a genuine interest in clean energy research. Knowledge of empirical methods (statistics / econometrics) and the willingness to acquire skills for writing code in R, Python, and/or LaTeX is an advantage, but not required.

Please send your application with the usual documents (letter of motivation, CV, overview of previous academic achievements, extracurricular activities, etc.) via email to:
