

<b>Job title</b>	<b>Trainee in Sustainable Energies m/w/d</b>
<b>Tasks</b>	<p>You will work in our Sustainable Energy and focus on technical expertise and managing Sustainable Energy Projects, primarily in the area of policy planning, regulation, financing and capacity building. Your main tasks will be:</p> <ul style="list-style-type: none"> <li>• operational support in the project management implementation including monitoring, operations and administration</li> <li>• other general support in the Project Management</li> <li>• support in the elaboration of technical proposal</li> <li>• contribution to the technical implementation of consultancy.</li> </ul> <p>Project locations around the globe, services to be performed in head office in Bad Homburg and abroad.</p>
<b>Qualifications</b>	<ul style="list-style-type: none"> <li>• University degree in political science, public administration, international relation, European studies, economics or other suitable qualification</li> <li>• Knowledge of the sustainable energy sector, ideally initial experience</li> <li>• Experience in contributing in publication, drafting paper and present the results</li> <li>• Knowledge of one or several of the project cooperation approaches (LFM, capacity works, results-based, outcome mapping...)</li> <li>• Commercial awareness and good communication skills with a high degree of flexibility</li> <li>• Fluent in English; fluent in French and/or Russians would be an additional valued advantage</li> <li>• The ideal candidate is straightforward, really motivated and interested to learn more about the technical part of the energy sector.</li> </ul> <p>Beside your technical skills, you are communicative, responsible, ready to travel abroad in case it is needed, and an advanced user of MS Office. You like to look for innovative solutions, to learn new technologies and to take up challenges.</p>
<b>We offer</b>	<p>We are a German consulting engineers company, member of GOPA, one of the strongest consulting groups in Europe. We are mainly active in East and South-East Europe, Africa, Middle East and Asia. We offer you a full-time trainee position to work in an interdisciplinary team and in a multicultural environment (12 months based in Bad Homburg to start in September 2020). You would be part of our growing Sustainable Energy Team. All the information may suggest modifying due to the Covid-19 crisis.</p>
