

For assistance in several research projects, the **Chair of Microsociology and Social Psychology of Prof. Dr. Herbert Bless** offers a job as

Student Assistant
(ca. 15 to 25 hours/month)

Project and task description:

You will be mainly working with panel data, as for example from the Socio-Economic Panel (SOEP) or the European Social Survey (ESS). Such data offer a great opportunity to investigate research questions at the interface between psychology and sociology. Your main task will be to support our chair on this manner with data preparation and analysis.

Requirements:

You should have great interest in working with panel data, and ideally have first knowledge in important statistical methods, especially longitudinal and multilevel analyses. We further expect you to work in an independent and motivated manner.

If you have any questions or if you are interested in working at our chair, please send an e-mail to:

Lucia Boileau

lboileau@mail.uni-mannheim.de

We are looking forward to meeting you!

The **Chair of Microsociology and Social Psychology** of Prof. Dr. Herbert Bless is looking for a student assistant (20-25 hours per month) to support quantitative data analysis at the **next possible point in time**.

Tasks:

- Assistance in the preparation and implementation of research projects
- Maintenance and preparation of datasets
- Data analysis, especially with panel data

Requirements:

- Willingness to get familiar with the SPSS and/or R software
- Experience in dealing with large datasets (e.g. SOEP, European Social Survey, Allbus)
- Good knowledge of common statistical methods, ideally longitudinal and multilevel analyses
- Independency and motivation
- Good command of English

If you have any questions or if you are interested, please send an e-mail to:

Lucia Boileau

lboileau@mail.uni-mannheim.de

We are looking forward to your application!
