

## Support for statistical analyses in R

### *Academic Writing and Working*

Student assistants are available in the FSS 2023 via the working group for psychological methodology and diagnostics to support fellow students in data analysis and in the use of R, as well as for exchanges on the topic of writing (final) papers. The service is currently offered in the form of online consultation hours to clarify specific questions.

In order to be able to better estimate the main topics and capacity in advance, a short pre-registration (indicating the most important topics and questions) is requested at [rberat@mail.uni-mannheim.de](mailto:rberat@mail.uni-mannheim.de). However, participation is also possible without registration.
