Overview of the implementation of the contents of the PsychThApprO in the bachelor's program in Psychology at the (Name of the higher education institution) for (Last name, first name)

The purpose of this table is to facilitate the mutual recognition of degrees between universities or higher education institutions recognized as equivalent to universities for applications for master's programs in Psychology with a focus on Clinical Psychology and Psychotherapy with the goal of becoming licensed. The following knowledge and internship requirements of the licensing regulations for Psychotherapists (PsychThApprO) must be fulfilled by students in modules or in subsequent/additional qualifications during the bachelor's program (not after completion!) to fulfill the professional law-related part of the admission requirements for the master's program in Psychology with a focus on Clinical Psychology and Psychotherapy (for a complete list of the contents/learning outcomes, please see PsychThApprO, Sections 12-15 and Annex 1).

Please enable your students to apply to other higher education institutions by filling out the table!

In the following, you will find the sections of the PsychThApprO (with reference to Sections 12-15 or Annex 1) with the required ECTS credits in the two columns on the left. Please enter the scope of the modules and the title of the modules of the degree program at your higher education institution covering these contents in the two columns on the right.

Thank you very much.
