Overall satisfaction

What did you especially like about the course?

- Having deadlines to progress, learning about others' ideas and progress, the safe space environment
- Learning about others' research idea. I also like Thomas a lot and his supportive attitude. <3
- Very good feedback culture and atmosphere. Deadlines helpful for progress.

Do you have any recommendations how to improve the course? If so, which ones?

- I wish that it was not compulsory and we have the chance to decide to submit and present. If we do not need feedback, or if we think that the feedback will not be helpful, we should not be forced so. We will write that proposal anyway.
- Maybe switch the reviewers for the second workshop. I see the point that the reviewers can see the progress between sessions 1 and 2, but I think it would be even more beneficial if others also read the proposal and could give in-depth feedback. Ensure reviewers are not from the same chair because they often give feedback during a chair colloquium.
