Overall satisfaction

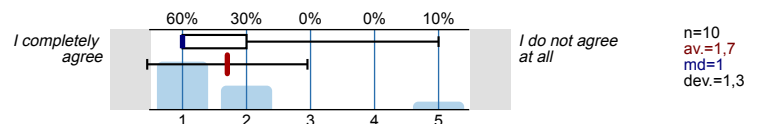

What did you especially like about the course?

- - getting familiar with social science faculty members and chairs
 - drawing inspiration from the variety of research presented
 - room for discussion and questions
- I loved that the course was in person this year. I also appreciated the structure of the course days. For instance, I remember one day when researchers working at the intersection of political science and sociology gave presentations. Overall, the course was very well-structured and thoughtfully organized.
- The different perspectives of different research fields.
- The idea of hearing presentations from experts in other fields is great and was well executed.
- The various topics and researchers that came to class; hybrid meetings

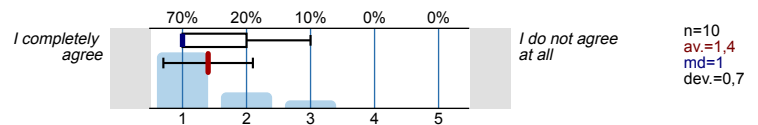

Do you have any recommendations how to improve the course? If so, which ones?

- Some presentations were, in my view, very complicated and hard to understand if you don't have background knowledge. I would have liked if it would have been a little bit more understandable.
- Stick to a certain time frame (e.g. always fridays) to facilitate the participation students in other lectures and seminars apart from the time where CRP takes place

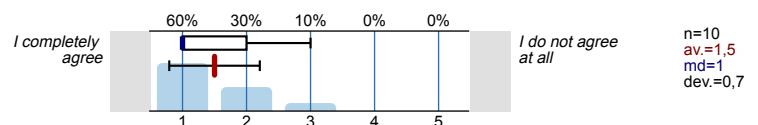

Overall, I am very satisfied with the instructor.

Overall, I am very satisfied with the course.

I learned a lot in this course.
