Online Appendix to

Marco Meyer and Harald Schoen, 2015: Avoiding vote loss by changing policy positions: The Fukushima disaster, party responses, and the German electorate, Party Politics, doi: 10.1177/1354068815602145

Table B1. Smallest distance to party positions for identifiers of different parties and nonidentifiers

Smallest distance	Smallest distance on nuclear power issue for CDU/CSU identifiers, 2009-2011									
	CDU	CDU + x	FDP	SPD	Greens	Left	Other			
	closest	closest	closest	closest	closest	closest	combination	Ν		
Apr/May 2009	38%	77%	9%	3%	3%	3%	5%	64		
Dec 2009	23%	62%	15%	6%	3%	3%	11%	182		
June/July 2010	28%	67%	11%	6%	4%	3%	10%	118		
March 2011	16%	54%	8%	17%	3%	4%	14%	68		
May/June 2011	20%	58%	7%	8%	11%	1%	15%	156		
Aug/Sept 2011	21%	56%	10%	8%	10%	4%	12%	164		
Simulation (assum	ning CDU ar	nd FDP percep	tion of Jun	e/July 201	1 before po	olicy shift)			
March 2011	0%	34%	0%	33%	3%	3%	27%	68		
May/June 2011	0%	30%	0%	18%	15%	2%	35%	156		
Aug/Sept 2011	0%	37%	0%	19%	13%	5%	28%	164		

. . 1

Notes: Cell entries are percentages with respect to all identifiers in the respective survey. The two columns on the left report the proportion of identifiers who perceived the CDU (or the CDU and some other party (CDU + x)) closest to them on the nuclear power issue. The right-hand columns include the proportions of CDU/CSU identifiers who were positioned closest to several parties simultaneously. To compare the simulation results with the actual results, hypothetical June/July 2011 positions were rounded to nearest whole number. Note that the comparison of all party positions implies that the analysis is confined to those respondents giving valid answers to all party perceptions.

Smallest distance on nuclear power issue for FDP identifiers, 2009-2011

			~~~~	~~~~	~		~ 1
